Where Our Journey Began

WELCOME ABOARD! We are now leaving the small, charming port of Northville, Michigan. Incorporated as a village in 1837, Northville is an attractive, historical city located in the rolling countryside just northwest of Detroit. While having most of the advantages of a large urban area, Northville remains a "small town" community with a population of approximately 22,000 in both city and township. As we embark upon our cruise through 1980, we are accompanied by songs from the music group "Journey."

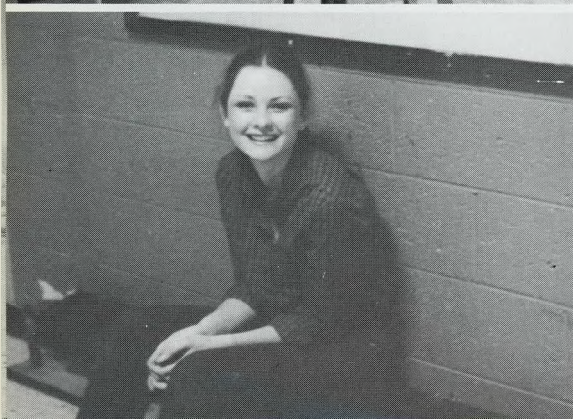

City of the angels

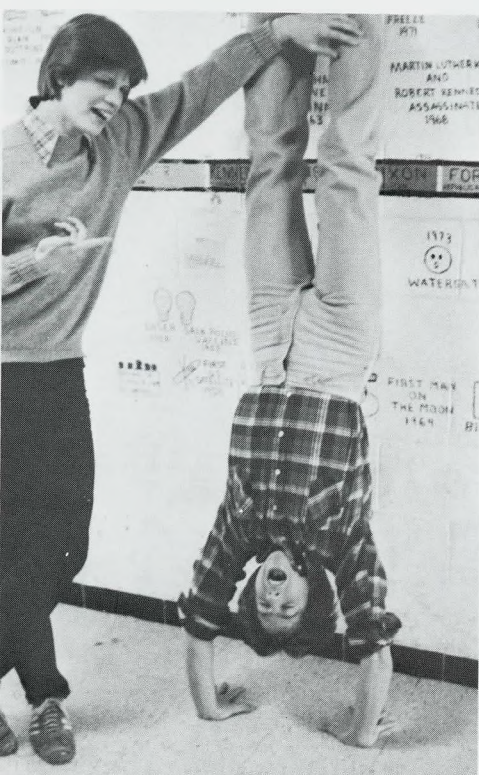

The People We Have Met

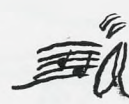

Northville High School with over one thousand students in the Senior, Junior, and Sophomore classes combined was built on one of the highest points in the county. Its students consistently score in the highest levels on national tests, and the school offers a wide range of athletic and club activities.

ARSENIC AND OLD LACE

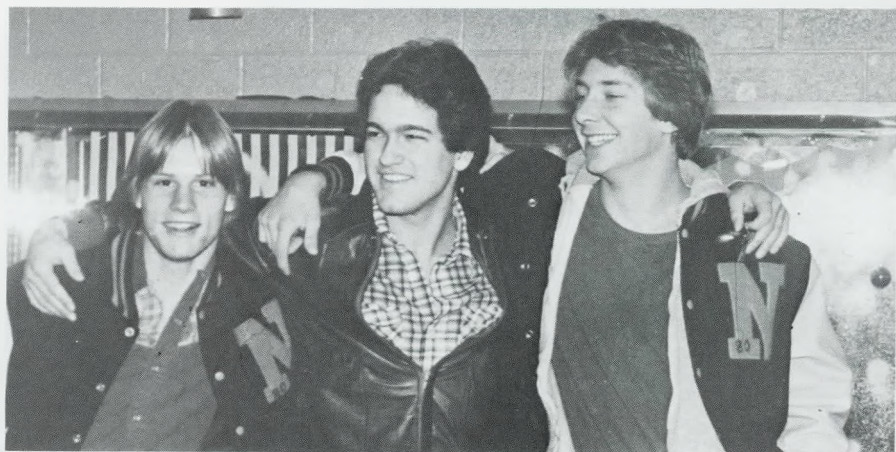

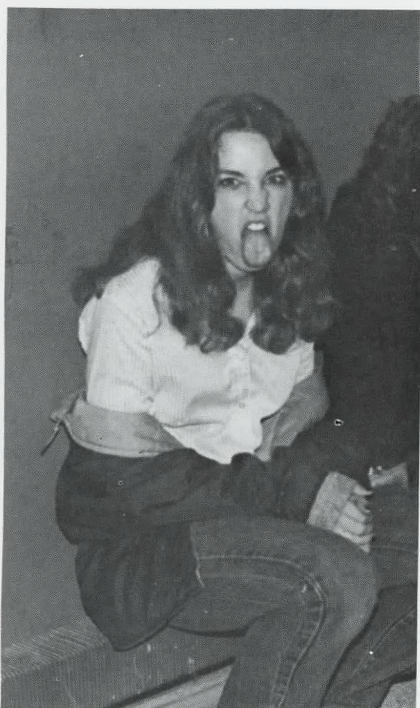

THE DIRECTOR AND CAST AT WORK

This year's fall play took a new road, with a new director and a play that was quite different from previous N.H. S. plays. Monica Deeter (above) was chosen to direct the play. Ms. Deeter chose "Arsenic and Old Lace" as this fall's play. Unlike previous high school plays, it was not a musical, but instead had vast amounts of both serious and humorous dialogue. "Arsenic and Old Lace" is about two old ladies who take joy in poisoning men who come to their house when they discover the men are old, sick or lonely. Then they bury them all in the basement.

The Northville High School based Rock Band OBSESSION, rocked and rolled with a new sound that brought down the the house at a November dance. Group members from 1-r: Craig Raymond, Paul Wittwer, Gia Warner, Pat Behrend and Darin Rivera.

The N.H.S. Girl's Swimming Team has met many challenges and proved that power, skill and dedication can lead them to the top. The 1979-80 team has been the fastest team in the history of N.H.S. Because of this, many school records were broken. Northville placed first in the Western 6 Conference, leading by more than 100 points. One of the team's reasons for success was Sue Cahill. Sue combined with the other excellent swimmers on the team, has made this season a successful one for the girls.

G.A.A.

In previous years, a group of girls met and elected four officers to head their organization, the Girl's Athletic League (commonly known as G.A.L.). This year, the old members of G.A.L. met, added new members, and chose a new title. The new name is the Girl's Athletic Association (G.A.A.). Although they changed the last word in their title, the girls set the same goal, supporting and promoting girl's sports. This year the girls have raised funds to complete an unfinished showcase, identifying all of their past accomplishments.

FORENSICS

Forensics is competitive speaking in either public speaking events or interpretive reading. Students are invited to several preparatory tournaments where they compete for honors and awards with other schools. They then compete in the state-wide elimination tournament at the district, regional, and state levels. Categories of interpretive competition include humorous and serious interpretive reading, storytelling, multiple reading, and dramatic duo. The public speaking events are original oratory, informative speaking, impromptu speaking, extempore speaking and radio broad casting.
