"Vorwärts, Aufwärts!"

That Is the Dutch of the Graduates' Motto, Which Translated

IS ONWARD AND UPWARD.

The Six Sheepskins, Tied With Pink and Blue Ribbons, Were Bestowed.

"And all was beautiful." The day, the night, the decorations, the flowers, the essays and the class, seemed blended together. June 22 appeared to have been made especially beautiful and cool for the occasion. The opera house was filled, though not crowded. The stage was handsomely and elaborately decorated with flowers, and blue and pink bunting, the class colors, while just across the border-curtain was suspended a huge blue and pink banner with the class motto, "Vorwärts, Aufwärts!" worked with evergreen leaves upon it.

The program was carried out as heretofore announced. Rev. P. Ross Parrish invoked the divine blessing and then followed a very neat instrumental duet by Miss Joslin and Mr. Steif.

Miss Mabel Clark delivered the salutatory address in a very pleasing manner, extending a kind and cordial welcome to all. The remarks showed careful preparation and were exceedingly well delivered.

The subject of Miss Thompson's essay was "Uncut Leaves," her remarks referring to the yet unopened pages of the book of life yet before them. The subject was well handled and showed much thought and study.

Then Miss Whipple sang a very sweet solo, Mr. Steif accompanying her on the violin and Miss Joslin on the piano.

Mr. Smith had the peculiar subject, "But" He got a great deal out of it, and plainly showed the difference between the world of today and what it might have been had our great generals and statesmen not wholly discarded the cowardly word. The oration was good.

For her selected recitation Miss Clark recited "Sworn by the Rock of Ages" It was a sweet, sad sketch and Miss Clark displayed unusual dramatic power in the reading and received a hearty encore for her effort.

And then came music again, Mr. Steif played a very handsome violin solo, accompanied by Miss Joslin on the piano.

The discussion "Is annexation policy conducive to the best interests of the country?" was taken hold of by Mr. Woodman, affirmative and Mr. Horton negative. No decision seemed really to have been made but the arguments used on either side were extremely good.

Miss Thompson's recitation "J'iners" is a very funny piece and in her droll and humorous way she kept the audience in a laugh from start to finish.

Just here Mrs. Long sang a very pretty solo, Miss Yerkes playing the accompaniment.

Next followed Thad J. Knapp's oration, "The Mission of the XIX Century." He traced the important events from its beginning down to the present time, the great Columbian exposition at Chicago. From this he delivered the valedictory. In this last he was at his best. His remarks were not only elegant in character, but exceedingly well delivered. With the two ladies, Mr. Knapp showed his elocutionary training of the past year.

In presenting the diplomas, Prof. Bliss did it in a way that was extremely pleasing to the audience as well as the class. His remarks and advice with it, were grand and good.

After some more music by Mr. Steif and Miss Joslin, Rev. J. M. Belding pronounced the benediction and all was over. The class of '93 had been safely launched on the onward and upward course of life's troubled sea.

MRS. HARMON IS DEAD.

She Died Tuesday Night at the Detroit Hospital.

Mrs. John Harmon of this place died Tuesday night at the Detroit hospital from the result of an operation performed Monday to remove a cancer.

Mrs. Harmon was 64 years of age and had suffered ill health for a number of years. Mr. Harmon, it will be remembered, died very suddenly a year ago last February.

The remains were brought here from Detroit yesterday afternoon and the funeral will occur from the home at 10:30 tomorrow. Rev. W. T. Jaquess officiating.

Mrs. Harmon was a highly respected lady and her sudden death is much regretted by her many friends here.

"STANDING ROOM ONLY."

A Large Crowd Out to Hear Tracy McGregor.

Those unwilling to stand, after the pews, and extra chairs which were in the aisles were filled Sunday evening at the Presbyterian church, had to go a way from the service. The address by Tracy McGregor, of the McGregor Helping Hand mission, telling the simple story of the rescue work at 55 Cadillac square, touched every heart and held the immense audience at high interest for forty minutes while the graphic recital proceeded.

He described the work, the methods and gave many interesting results from his personal knowledge. He did not come to Northville to beg for the work, but rather upon the invitation of Mr. Belding, his warm friend, who felt that he would like the people of our village to come in personal contact with Mr. McGregor and learn of the interesting and practical christian labor going forward under his direction. Mr. McGregor, his father, established a mission for the masses in Toledo, which is now being carried forward with great success. He came to Detroit and opened a like mission there sinking his entire income in the work and laboring so ardently that his health broke on the wheel. The young son, then in his second college year, was summoned to the death bed of the sainted father and after laying him away in his last resting place, he came to Detroit and took up the work, carrying it on with all the loving zeal that characterized his parent.

Last year 4,000 men made the mission their home; were helped and received good from the personal contact with those engaged in the work. The mission is undenominational and carried on by voluntary offerings.

Mr. McGregor's visit here has been one of pleasure to all who met him. Saturday evening Mr. and Mrs. F. N. Clark tendered him an informal reception at which Mrs. W. G. Lapham and Miss Hattie Yerkes assisted in the entertaining.

The music Sunday evening furnished by Miss Kerby and her brother Bert, a lad of fifteen, was heartily enjoyed. The father who was with them and presided at the organ was totally blind.

The sun boiled down upon the fair Auburn head of the young fisherman, and becoming slightly dizzy, the boat dipped and "Johnnie" was precipitated into the drink, and in the language of the average fisherman, "got wet clear up to here."—So, Lyon Excelsior.

Will the Excelsior please explain whether it was the "sun," the "fair Auburn head," the "boat" or "Johnnie" that became slightly dizzy.

A WOMAN and a comparatively intelligent monkey went up in a balloon. The latter made protest. The woman parachuted safely to earth, the monkey was badly hurt, both circumstances, it is only just to remark, being viewed by spectators with much regret.

JAMES GILBERT, the dynamite, recently released from an English jail to save him from the mortification of being there, is reported as on the road to recovery at a rapid and accelerating gait. Those who had made even a casual study of such cases had prophesied that this would occur.

PEOPLE who seldom or never testify make on the whole much better and more satisfactory witnesses than the officers and policemen who are in the habit of testifying almost daily. It is a fact generally noted by lawyers, that the amateur witnesses is usually much more trustworthy than the professional.

IF THE cholera scare breaks out again this summer, as it possibly may any day, any man may successfully quarantine himself by simply keeping clean and living in clean and wholesome surroundings. But this should not lead the quarantine officers to abate a jot in their endeavors to keep the cholera out.

A CHINESE family finding itself encumbered with a dead baby, threw the body into a pool of mud, much after the manner that civilization employs in disposing of the cat whose race has been cursed. The circumstance is not peculiar reading, but it floods with needed light the theory that the Chinese are desirable neighbors.

CLAUS SPRECKELS, chief owner of Hawaii, was at last accounts in a terrible rage because things were not going his way. An explosion which will scatter the disjunct members of Claus over the wide Pacific is greatly to be apprehended. Herr Spreckels has long been the cause of much innocent amusement, and we hope he may be spared.

PROFESSOR PROCTOR, the astronomer, died nearly five years ago, but his grave in Greenwood cemetery still remains unmarked. His grave, in fact, was located by an undertaker who allowed the body to be buried there until other arrangements could be made. And yet when Professor Proctor was alive his name was known through England and America alike.

A PHYSICIAN in a New York town, distressed by the fact that a patient was dying on his hands, took poison so quickly and so well, that which of the twin first reached the shining shore must ever be a mooted question. This, it is to be hoped, will not be regarded as a precedent. A world without doctors is too melancholy a prospect to be calmly contemplated.

A LONG-DISTANCE race near Vienna has been won by a vegetarian, and modern Nichadanezars are inclined to gloat about the circumstance. There is really nothing in it indicative of the strength-producing qualities of this diet. The competitor who had only to drop his knees at meat time and nibble grass had an almost unfair advantage over rivals with appetites.

SOME of the Canadian papers are saddened by the iniquity of the Geary Law and disposed to real their Uncle Sam lectures on the subject. It is a sad blow to the Canadian enterprise of smuggling Chinese over the border at \$5 a head and taken in connection with this country's hostile attitude toward seal poaching, may look like an unfriendly act.

ALREADY we are beginning to hear the old cry that there are no young men at the seaside resorts. An ocean may be a pretty good ocean, and yet it will not be attractive to feminine guests, even if they can get daily glimpses of the sea serpent lashing his fantastic tail against the frightened horizon, if no young men are there. Here at last is an anomaly for the political economists—a demand without a supply.

We agree with the Philadelphia Inquirer that Mohammed Webb should pause in his mad career long enough to apprise the American people which branch of Islamism he proposes to convert them to. Like the Christian religion, Islam has sundry jarring sects, each of which calls the other misbeliever, and denounces its rivals as worse than the Christians. History tends to show that in the last clause of this indictment they all tell the truth. Until Webb can assure us that he has the only simple pure article we are excusable for deriding all his efforts.

GREAT IS DENMARK.

LAND OF THE VIKINGS BIG DISPLAY AT CHICAGO.

The Name of Lieft. Erikson Remembered in Fitting Style—Relics of Her Greatest Poet in the Danish Display at the Big Fair.

(World's Fair Letter.)

MR. DANIEL WILL admit that Columbus is entitled to the credit of the original discovery of America, but he does not go about glorifying the great expedition, whose aim is to honor the intrepid navigator's memory. On the other hand, Denmark is taking a cheerful interest in the celebration. That country was one of the first to accept the invitation to participate in the World's Fair, but late ice in the North Sea delayed the shipment of her exhibits, and when in mid-ocean, the steamer Hecla, bringing them, broke

up. The goods did not arrive until after the opening day of the exposition. Part of the framework of the pavilion for the Danish exhibits had been prepared at home and it has not taken long to put it together.

In manufacturers' buildings, where the principal exhibit is made, a characteristic pavilion has been constructed. It stands just north of the Swiss section, fronting Columbia Avenue. Directly across this broad aisle is Russia. A broad and high portal in the middle of the facade is the only gateway to the interior. Two other small openings on either side preserve the architectural symmetry, but they are blocked by the massive exhibits.

Above the central arch is the country's coat of arms, surmounted by a bust of some eighty feet high. The name "Chicago" occupies a panel on the front equally prominent with that of "Copenhagen."

Denmark doesn't believe in hiding her choice things in a cupboard and requiring a ticket of admission to see them. She has, therefore, made the exterior of her imposing structure furnish walls for the display of exhibits. Every inch of space on the outside walls or in open windows or niches has been utilized to show some painting of historical interest or the beautiful scenery of the country, or a product of sculpture.

As though to prepare the mind for the reasonableness of the claim that Leif Erikson crossed the Atlantic four centuries before Columbus, a number of pictures are hung on the outer walls illustrating the adventures and hardy character of the vikings. One shows a Danish fleet crossing the North sea in 982, another the landing of one of these expeditions on a foreign coast in 984. The next step in the historical suggestion leads to a corner room in the interior of the pavilion, which is called the Erikson room. Its walls are covered with primitive sketches of what are believed to be the faces of this early explorer, and the furniture is reproduced from styles in use in Iceland at the present day. The room is devoted to the memory of the "first discoverer of America."

Denmark may have a commendable admiration for her heroes, but the memory of none touches its heart more tenderly than that of its poet and writer of fairy tales, Hans Christian Andersen. A bronze statue of Andersen occupies one of the front portals, and immediately back of it is a reproduction of the room in which he lived, a greater part of his life and in which he died.

The room is equipped with the identical furniture used by him and hundreds of relics associated with his name. Among the latter is the copy of the original manuscript of "The Tale of Mr. Wif's" and portions of other manuscripts; his hat, penknife, handkerchief, cigarette case, spectacles and traveling luggage, and among the articles of furniture are his writing desk, bookcase, center table, sofa, stove and wall pictures. It is of interest to know that arrangements are

expected to be made by which a copy of the bronze statue of the author will be left in Chicago.

A bronze statue of Thorwaldsen stands in the half-closed opening at the opposite front corner. This was cast in Copenhagen, like that of Andersen, and has been sold to New York city to be set up in Central Park at the close of the exposition.

As to the industrial exhibits, Denmark has installed some beautiful and costly and beautiful specimens of gold and silverware. The designs are new and the workmanship exceedingly intricate.

Near this display is one of china from the royal works at Copenhagen.

These works were established in 1766, and the products, both of tableware and ornamental pieces, have attained world-wide reputation. One section is devoted to the famous Ispen pottery, unlike anything else seen in the exposition in the delicate coloring of the ware and its clearly defined ornamentation. This is made at the great factory and the principal productions, a collection of Greek and Roman vases. The vases are much lower than those of similar pottery from other countries. One piece is a nice twelve-yard-long, representing Alexander the Great's entrance into Babylon, after Thorwaldsen.

An interesting ceramic is shown in a painting called "The Daughters of the Ocean." It is about twelve feet in length, was painted by Loreth Froll, and was made in Bayence by Herinau Kshler.

The school faddists will find a congenial corner where there is a complete exposition of the Danish Lloyd Association. Manual labor as a discipline in the schools of Denmark was required by law as early as 1814, but it was not sympathetically taught under the name ofloyd until within the past ten years. The first realloyd school was established in Copenhagen in 1858, and the Danish Lloyd Association was founded in that year. Its object was to promote the teaching ofloyd, and it is now in the curriculum of sixty-seven public schools and twenty special schools. The association seeks to secure its compulsory teaching in the higher as well as the elementary schools, and it is said the public looks with favor upon the movement.

By the exhibition here the association hopes to remove the obstacles to its introduction in the schools of this country. All the details of theloyd school, including the pupils and the tools, have been reproduced in miniature, showing the methods of work and the results. Denmark's royal commission is headed by Carl Michelson, president, and exhibits are also found in the fine arts, women's and agriculture buildings.

THE BABY'S PICTURE. How One Mother Keeps a Diary of the Little One. Photographing her own baby is one of the occupations of the modern mother. And if she has a knack at the art and has reached a fair degree of skill her work is apt to be a perfect success. She has the subject at a greater advantage than any professional photographer ever can. Her knowledge of the baby's character and moods and her being able to take him at just the most bewitching moment count for more in the portrait than the trained artist's higher powers.

One photographer and mother who is an enthusiast in both capacities keeps a sort of diary of her boy's likenesses. She takes him every day, rain or shine, trying to catch the most characteristic expression that his babyishness assumes in the course of the twenty-four hours. Sometimes he is asleep lying on the bias across the bed with his arms stretched out as if endeavoring to take up every inch of space in the world he could. Sometimes he is investigating the nature of his new toy, sometimes laughing in glee at his latest piece of wickedness.

This amateur artist mounts her daily photographs in various ways. One year she took only blue prints, setting them on the grey drawing paper and binding them in a book by the dozen. This year she is using a brown tone in her work and mounting the pictures on plain manilla paper. She says that for next year she shall make all the photographs as light as possible and mount them on fair white cardboard.

A Pleading Epitaph. The Baroness Burdett-Coutts received, among many beautiful gifts on her recently celebrated seventy-ninth birthday, one that gave her peculiar pleasure. It was a painting and other workmen who have been busy for weeks busily giving the town residence of the Baroness its spring renovation, had subscribed together for a basket of flowers, which was, with a scroll of the donors' names, placed on her ladyship's breakfast table. Delighted with the men's thoughtfulness, Lady Burdett-Coutts sent for them, and in a grateful little speech expressed her gratification at the gift. The Baroness usually celebrates the anniversary of her marriage day in a very novel and pretty way. At one of her recent celebrations she booked twenty-five stalls at the Savoy theater, and there, wearing a wreath of roses, and seated in the midst of twenty-four friends, she spent the evening.

"Ah! Mad." A singular story is told of a party of gentlemen who arrived at Naples recently on their way home from Australia. One of the party was Mr. Lionel Kignold, the popular English comedian, and it was agreed to visit the great San Carlo Opera-House during the day. They did so, and as they could not be present at the performance in the evening, it was suggested that the acoustic properties of the building should be tested by Mr. Kignold singing a song. Finding his friends would take no denial, Mr. Kignold warbled for a pathetic love ballad, "Mrs. Enry 'Awkins," which was received by his traveling companions with unbounded applause and with great astonishment by the Italian attendants, who, accepting a generous gratuity, soothed their feelings, ungratefully exclaimed as the party left the building: "Ah, these English! They are all mad!"

Singular Hallucination. George Smith of Stockton-on-Tees, England, was charged at Holywell with being a wandering lunatic. Smith, who is a skilled workman, and is respectfully connected, had some months ago been employed on special work at Mostyn Ironworks, when he complained that a young woman from this neighborhood had put her hand on his face, and had taken out his eyes and put her own in their place. He was then taken in charge by his friends, but afterward went back to Mostyn for the purpose of claiming the return of his eyes. He was ordered to be sent to the asylum at Denbigh.

A MAN WITHOUT A NAME.

strange Affliction Which Has Befallen a Stranger in Melbourne. The Melbourne Argus states that a young man about thirty years of age called at the police barracks, Russell street, Melbourne, recently, and asked the officer in charge if he could tell him who he was. At first it was thought that the man was a lunatic, but it soon became evident that this statement as to his memory having quite failed him was a genuine one. He was taken into custody, kept in the Melbourne jail, where numerous persons have called in the hope of recognizing him, but so far without success. He states that he does not remember anything before the day he visited the police barracks, and several medical men who have seen him express their belief in his statement, attributing his lack of memory to masked epilepsy. The man being unidentified, in default of his right name is referred to as "Edward Bellamy," the appellation bestowed upon him by the warders and prisoners who have read Bellamy's well known work, "Looking Backward."

While the church service was being proceeded with "Bellamy" was noticed listening intently to the music. He was questioned about it, and said: "I seem to have heard that before somewhere. What is it?" He did not seem to understand when told it was music, but at the conclusion of the service Dr. Shields took him up to the organ, and having shown him that the sounds he had heard were produced by fingering the keys, seated him in front of the instrument. "Bellamy" struck several notes unintelligently, and then a chord of two in harmony, and in an instant, with a look of pleasure, he commenced a selection from "The Creation" which he played correctly and well. He used the stops and showed that he was familiar with the instrument. When the jail organist whistled a bar or two of the hymn, "Hark the Herald Angels Sing," "Bellamy" smiled again, and without music or any further assistance, played the hymn through. As soon as he had done so he said: "Something else has come into my mind, and I want you to listen to it and see if it has anything to do with what I have just played." He then played "Awake, My Soul," an old and favorite hymn. The organist had evidently been suggested to him by the other. He played a number of secular airs after the first bars had been whistled.

THE CROWN OF SCOTLAND. The Story of the Will Not Allow the Keltic to Leave Edinburgh. A once precious diadem, which is now only an historical relic of much interest, is the ancient crown of the Scotch kings, kept in the castle of Edinburgh. It is supposed to have been made by Robert Bruce, and is formed of two circles of gold, the upper and narrower circle being surmounted by a row of crosses and gem-encrusted imitation flowers. The lower ring, the head band proper, is adorned from end to end of the "golden band" with large precious stones of different kinds, mostly in their rough unpolished state. Above rises two arches of gold, which unite and are surmounted with the historic "cross and ball." Even when the Stuarts became kings of England they went to the trouble of going to Scotland to seat themselves for a few moments upon the celebrated "Stone of Scone" and to have King Bruce's diadem placed upon their royal heads. Charles I. declared his intention of removing Scotland's famous relic to London so that such ceremonies could be carried out at home, but the sturdy Scots soon convinced him that such proceedings would be an infringement upon their rights, so the king had to go to Edinburgh as others had done before. The wife of a preacher by the name of Granger once stole the Scotch crown and the other royal insignia, this in 1652 or 1653. At the time of restoration they were transferred to Charles II. They were returned to Edinburgh castle in 1707 and have remained there ever since.

Indignant Father—You should be ashamed of yourself to use such language to your sister. Tommy—We were only playing papa and mamma, and she said she needed money for a new hat, so I talked to her like you do to mamma when she asks you for money.—Texas Sittings.

Value of Contract. Little Girl—When your feet is cold you mus' put zem in cold, awful cold water—mamma says so. Little Boy—Wot good does that do? Little Girl—I don't know, but I s'pects it makes us think our feet wasn't so cold as we thought they was.

Modern Architecture. Visitor—What is that heavy, gloomy-looking building over there? Resident—That is a theater and pleasure resort. Visitor—And what is the graceful, airy, Gothic structure to the right? Resident—That is the jail.—Chicago Record.

A Noble London Charity. Up to the end of last year the trustees of the Peabody donation fund have provided for the laboring poor of London 11,273 rooms, with washhouses and laundries, occupied by 20,114 persons.

What Hurt. "I don't enjoy the roasting the critics gave me, of course," said the aspiring tragedian, looking sadly at a portrait of himself in an illustrated paper, "but this—this is the unkindest cut of all!"

A List of Those Who Come and Those Who Go.

E. L. Phipps spent Sunday at his home, Milford.

W. C. Hakes was a guest of his son Will at Detroit Sunday.

Misses Edith and Minnie Reed came home from the Normal Monday.

Clarence Clark is home from the U. of M. for his summer vacation.

W. E. Palmer, with the Globe Co., spent Saturday with Ypsilanti friends.

Roy Barrett and Hoyt Woodman were guests of Milford friends Sunday.

Fred Wilkinson has been in Detroit for the past week visiting relatives.

Ar. Boggs has returned from an extended visit among Jackson friends.

Dr. J. M. Jaquess and son Claude left Sunday night for a week at the world's fair.

A number of Northville youngsters are now in camp along the banks of Walled Lake.

Prof. M. L. Smith of South Lyon was the guest of Prof. D. C. Bliss several days last week.

Fred and Lee Buchanan went to Detroit Saturday to spend a few days with friends and see Freborough.

Mr. Gillett, who has been visiting his daughters here returned to Cleveland, Tenn., last week.

Miss Anna Smith is vacationizing with friends in Ohio. She will visit the world's fair before returning home.

Mrs. S. E. Carrington and son Tommy and Miss Jennie Barley left Sunday night for the world's fair, Racine, Wis., and other points.

Mr. and Mrs. Neal expect to leave next Wednesday for a trip up the lakes and probably on to Chicago, with the Mich. Press association, to be absent a week or so.

At the meeting of the official board on Monday night, Rev. P. Ross Parrish was granted a leave of absence. He has decided to visit his mother in Ohio and with little Eva left Wednesday afternoon. Rev. S. P. Warner will fill the pulpit next Sabbath.

Ed Lapham is again at his post in J. S. Lapham & Co's. bank after a two week's visit at the Chicago exposition.

Ed. claims to have paid all his board bills at the Windy city and to have had several dollars left when he got back.

Miss Ellen F. Thompson of Palo Alto California is the guest of Dr. J. M. Swift and family for a month or so.

Miss Thompson as preceptress and Editor Osband of Ypsilanti as principal opened the Northville union school in 1885 and she held that position here for a number of years. Miss Thompson is now connected with the great Stanford University at Palo Alto.

Rev. W. T. Jaquess of Detroit was in town this week looking for a boarding place for his wife and child for the summer and made the necessary arrangements at Mr. J. D. Covert's. City air not agreeing with the health of the child and the pleasant surroundings of Northville led to the change.

Mr. Jaquess will remain in the village a part of each week, so we understand.

Mrs. John Pinkerton is home again.

L. G. N. Randolph of Detroit was in town yesterday.

Bert Bradner of Plymouth is clerking in the State Savings bank.

Herman Hurd of Clyde, Ohio, is visiting his sister, Mrs. Fred Wager.

Mrs. A. W. Reed and Charlie Riggs visited Mrs. Hyatt at Rose Center this week.

Charlie and Exene Reed gave a lawn party to twenty of their young school-mates yesterday.

Mrs. Helen Cable of Plymouth visited her aunt, Mrs. E. Shepherd, Tuesday.

Chas. Filkins, wife and son drove to Ypsilanti Saturday to visit relatives. Mrs. Filkins will remain a week.

C. A. Eyaft and family left for Toledo, Ohio, Tuesday, where they intend making it their future home.

B. A. Wheeler and family, and Chas. Dubuar and family go to Walled Lake this week for their summer outing.

Miss Jessie Lowden started Tuesday for Naperville, Ill., where she will spend the summer with her sister, Mrs. W. H. Nasir.

Mrs. J. Beal is at Ypsilanti this week attending commencement at the Normal where her daughter, Annie graduates. Nellie Thompson also graduates in the same class.

Luther Lapham offered a visit from his grandson, C. F. Lapham of Can. over Saturday. Mr. Lapham was one of the honored guests at the recent C. of M. debating contest.

W. J. Klancy and family left for Kalamazoo last week where they will make their future home. The best wishes of many Northville friends accompany them.

On Friday evening Mr. and Mrs. W. C. Lapham informally entertained in behalf of Mrs. Dodge of Windsor, who for several days was their guest. The following were present: J. A. Dubuar and wife, Chas. Booth and wife, Rev. J. M. Belding, Dr. Blanchard, H. Teichner, Mrs. Long and son, Ed. Lapham and sister, Mrs. Stont, Miss Fattie Yerkes, Miss Ethel Dubuar. Tees and cake, music and a pleasant time in general, composed the program.

Things Said and Done in the Prettiest, and Best Village in the World.

Jake Carmer is putting up a shoe shop adjoining the Globe factory.

Miss Bissell who was killed at Ypsilanti by the cars last week was a cousin of Mrs. Chas. Filkins of this place.

The band social on the alley lawn Saturday evening was a financial success. The net receipts were some \$15.00.

When in Detroit stop at the Wayne Hotel, opposite the M. C. depot. Best hotel in the city and best accommodations.

Tables at the Presbyterian Church next Sunday Morning. A Double of Contributions evening, "The Day We Celebrate."

The Bache, Wis., Hardware Co. in whose shop a number of Northville boys have been employed, failed last week for a large amount.

Next Sunday evening, Rev. J. McBelting, with his people, will celebrate the glorious jubilee. The evening sermon will be very patriotic. Topic, "The Day We Celebrate." The music by a chorus choir, will be keeping.

Tracy McGregor of Detroit who conducted the exercises at the Presbyterian church Sunday evening, was tendered a reception at F. N. Clark's residence Saturday evening. Some seventy-five of Northville's best paid their respects to Mr. McGregor and his friends.

At the close of school Miss Covert's pupils presented her with a set of gold studs. Miss Hooper's seventh grade gave her a silver napkin ring and the eighth grade presented her with a beautiful framed picture of the class, sixteen in number, who passed into the high school.

The "Baggage Check" comedy company, which was killed for here some time last month and which failed to start out from Detroit, has recently been purchased by that hustling and talented young actor, Oliver Labadie, and will appear here July 5. A free stereopticon entertainment will be given in front of the opera house previous to the opening.

A letter just received from Rev. L. G. Clark says he is very much pleased with Montana and his work in general. He has moved to Helena where his future headquarters and home will be at 711 Highland street. He says Mrs. Clark and Myra will be there in July. The letter closed with kind regards to all Northville people, and best wishes for their continued prosperity.

Last winter, at one of the Detroit meetings, Mr. McGrager, who spoke at the Presbyterian church here Sunday evening, having expressed a great desire to secure a stereopticon for gospel work, Miss Hattie Yerkes, now of this place, who chanced to be present, raised \$15 among her friends. The collection Sunday evening was just \$25, while at the close of the service other friends contributed \$7 more making \$47 in all. Miss Yerkes desires to make it an even \$50.

Northville people generally are disgusted with the Free Press' report of the commencement exercises held here last week. The salutarian, Miss Mabel Clark, for some unaccountable reason, was wholly ignored in the comments while her work was the peer of any one of the class. And then again no one knows why Roy T. Smith's name was left out when his essay was certainly the equal of others who were mentioned. And again the correspondent fails to mention, in connection with others, the very pretty solo by Miss Whipple, or the fine instrumental duets by Miss Joslin and Mr. Steif.

Some months ago two prizes of three and two dollars were offered in the eighth grade of the Northville school for the best composition work. Prof. Smith and other disinterested parties looked the work over last Thursday and decided that Eliza Welch and Stella Fuller were entitled to the prizes. They were all good, the fifteen, and it was with much difficulty that the judges reached the conclusion, and Prof. Smith, principal of the South Lyon school, said the work reflected great credit upon the pupils. The names of the participants were all withheld during the examination and decision, therefore the award was fairly and honestly made.

Do not fail to call at the "Little Gem" Photo Gallery, where you can get 15 Beautiful Pictures for 15 cents and Cab's for \$2.00 per doz. that will cost you \$3.00 anywhere in the county. D. EATON, Proprietor. 46w2p

Did you read the "Business Flashes"?

A. T. Stewart and wife now occupy rooms over E. S. Hastings' home on Cady street.

There are four divorce cases now pending in the Detroit courts in which Northville people are the interested parties.

The Loyal Temperance Legion will meet hereafter every Sunday afternoon at 4:30 at the W. C. T. U. hall. All are cordially invited to attend.

There was \$160 raised at the Methodist church last Sunday for various benevolent purposes.

Grant Foster has resigned his position as dry-goods clerk at Teichner & Co's and Geo. Waterman is filling the position in his stead.

A committee, A. K. Dolph, Chas. Wright, E. D. Mardock, W. H. Nicks, Ed. Simmons, has been appointed to arrange for a K. P. picnic to be held in July.

The Young People's union of the Baptist church will give an ice cream social at the home of Henry Powder Saturday evening July 11. All are invited.

A very interesting missionary meeting will be held this Thursday evening at the Presbyterian church. Papers, selections and music that will please all have been arranged for.

The committee on decorations for Sunday evening at the Presbyterian church will meet at the church Friday evening. They are: Jennie Babbitt, Inez Rockwell, Mabel Clark, Thad Knapp, Ralph Horton, Ben Porter, Geo. Lammerts.

Geo. Thurdie's and O. D. Peck's rigs collided at Plymouth Saturday night and two badly demolished carriages was the result. The occupants all escaped without injury though badly scared. A lawsuit, to see who shall pay for the damages done and assist the lawless relief fund, is threatened.

An indignant subscriber wrote us this last week: "I don't want your paper any longer." Now that's alright. We wouldn't make it any longer if he did, for in that case we should have to buy a new press to print it on. The present length just suits us and we are awfully glad it just suits the subscriber.

The bicycle club did not succeed in reorganizing last week but they took a short run through town. There are thirty-five names on the list and it is now proposed to get at least twenty of them together and drill up in maneuver work. There are, in addition to the above number, about twelve lady riders in the village, and more are learning.

George Stark, who was injured in a runaway accident two weeks ago, has, we are pleased to say, so far recovered as to be about the village again, with only a few scars left as a reminder of the disaster and his narrow escape. He wishes us to publicly say that he highly appreciates the kindly assistance shown him by our citizens the day of the accident, and since, we assure Mr. Stark that his many friends are more than doubly repaid for all their efforts, in the assurance of his recovery.

One Northville man has been found who would not pay in advance for tapping the water main, and he has not got the water. The rule is to pay in advance and it applies equally to all without regard to wealth, station or previous condition of servitude, or any other man.—Plymouth Mail Cor.

Waterboard Secretary Stevens and President Clark both inform us that there is no truth whatever in the above insinuation. The only reason for the delay of two weeks in tapping mains is because of the breakage of the 3 inch tap and the subsequent trouble in getting a new one. No one objects to paying in advance for the tap. In fact it is the only way the business could be managed anyhow.

We have had a talk with a number of Northville's tax payers and without a single dissent they are unanimously in favor of the erection of a public drinking fountain at the corner of Main and Center streets or some other suitably convenient place. Holly has one or two of them and finds it one of the best investments the village ever made. Not only would it prove a great benefit and convenience to everyone in the place, but likewise it would be highly appreciated by all visitors and patrons of the village. The cost would not exceed \$100, we have abundance of pure water; it is needed. Then why not have it? Will the council not take some action on this, as well as the fire alarm, at the regular meeting Monday night?

Quite a funny story is told of F. S. Neal, editor of the Northville Record, and although that "tired feeling" has left him and he is today one of the most pushing young newspapermen in the state, still we can't help but give him a boy. It seems that when he was a boy he was a very lazy youngster. One day a hog on his father's place got through the fence into the garden; and F. S. was ordered to drive him out, which he very reluctantly did. He was also ordered to patch the fence, but he was too tired so he laid down in the hole in the fence, to keep out Mr. Hog, rather than fix the fence.—Holly Advertiser.

After the Holly cyclone visit of three weeks ago the editor of the Advertiser joined the church and took a George Washington vow, but he sorrowfully notes that he has returned to his evil ways again.

FOR MEN

[Edited weekly by one of them.]

We have a large faith in our work.

President Lamoreaux has taken vigorous hold of the work of the men's meeting and victories are to be more numerous than ever.

There are no bars that pierce so keenly the quivering sensibilities as the jeer of ridicule and the scoff of contempt. Don't use them!

State Secretary Clarke's talk Sunday was most inspiring. He took for his subject "Personal work." The address was very timely and the singing was excellent. Mr. Clarke was much pleased with the outlook. Tracy McGregor of Detroit was also in attendance.

PHYSICIANS OUTLOOK.

My wife has been suffering with female trouble of the severest kind for over three years. I have paid twenty five dollars during the last three months and she has had no relief. She had doctors continually with her best of physicians. I sought the best of medicine and I bought the bottles of Dr. Williams' Great German Remedy for the Blood, Stomach and Kidneys and to my surprise after using three bottles I feel like a new man. If you desire you can use my name in print or by reference in any of the Grand Rapids, Michigan papers, or any other papers in the States, to convince the afflicted that it is the best Blood, Liver and Kidney medicine on earth. I feel like a new man. I have lived here over 40 years.

"August Flower" Miss C. G. McCleave, School-teacher, 756 Park Place, Elmira, N. Y. "This Spring while away from home teaching, my first term in a country school I was perfectly wretched with that human agony called dyspepsia. After dining for two weeks and getting no better, a friend wrote me, suggesting that I take August Flower. The very next day I purchased a bottle. I am delighted to say that August Flower helped me so that I have quite recovered from my indisposition."

THE DEAR OLD FLAG. MET AN AWFUL FATE.

OUR NATIONAL EMBLEM IN MANY FORMS. The Circumstances Which Give Rise to "Old Glory" Recited for American Youths—Flags of the Patriotic Colonies.

OUR SPLENDID national emblem is a very familiar sight to the young people of this great country, but it is probable that very many who hal it with enthusiastic cheers are quite ignorant of the circumstances which gave rise to its adoption. There is a striking resemblance between the design of our flag and the arms of General Washington, which consisted of three stars in the upper portion and three bars running across the escutcheon, and it is believed by many that the American flag was derived from this heraldic design.

THE PINE-TREE FLAG. The words, "An Appeal to Heaven," in October, 1775, the floating batteries of Boston carried a flag with the motto, "An Appeal to Heaven," the design being a pine tree on a white field. Virginia carried a flag in 1775—design, a rattlesnake coiled as if about to strike, and the motto, "Don't Tread on Me." Her State motto in the present time resembles this, "Etic semper tyranni," but it was not until January 18, 1776, that the green and gold flag, bearing stars and stripes, was raised on the heights near Boston. It has been said that when the regulars—British troops—saw it, they supposed it was an evidence of submission to the King, who had just issued his proclamation.

An extract from the British Register of 1776 reads thus: "The rebels burnt the King's speech, and changed their colors from a plain red ground to a flag with thirteen stripes, as a sign of the number and union of the colonies." A letter written from Boston to the Pennsylvania Gazette in 1776 says: "The union flag was raised on the second, a compliment to the united colonies."

So we see that a series and number of flags appeared—the rattlesnake, the pine tree and the stripes, the various designs of the different colonies—until July 1777, when the blue union of the stars was added to the stripes, and the flag adopted this flag as the national emblem. After the adoption of this flag a stripe was added with every new State; but, as it became manifest that in time the beauty of the emblem would be marred by the enormous proportions acquired by additional States, Congress reduced the stripes to the original thirteen, and the stars were made to correspond with the number of States.

Perhaps no flag on sea or land shows its grace and beauty of design so well as the emblem of the United States, as its proportions are perfect when it is accurately and properly made—one half as broad as it is long—the first stripe red, the next white, and the three alternating colors make the last stripe red, the blue field for the stars being the width and square of the first seven stripes.

The Continental Congress appointed a committee to supervise the union of the different parts of the National flag, and the following description of their design and significance was prepared: "The stars of the new flag represent the new constellation of States rising in the West. The idea was taken from the great constellation of Lyra, which is the emblem of Oppens, signifies harmony. The blue in the field was taken from the edges of the Governors' banners in Scotland, signifying the league covenant of the United States against oppression, incidentally involving the virtues of vigilance, perseverance, and justice. The stars were

disposed in a circle, symbolizing the perpetuity of the union; the flag like the serpent of the Egyptians, signifying eternity. The thirteen stripes showed with the stars the number of the united colonies, and denoted the subordination of the States of the Union, as well as equality among themselves. The whole was the blending of the various flags of the army, and the white ones of the floating batteries. The red color, which in Roman days was the signal of defiance, denoted daring; and the white, purity."

Five Hundred Men Caught in the Maelstrom caused by the sinking ship and drawn within reach of the screws, where they were cut to pieces.

New York, June 18.—An extra edition of the World, contains a special cable from Tripoli, giving the full details of the sinking of the ship Victoria. They are as follows: About 3 o'clock last Thursday afternoon the English steamer night of El Milha, the port and town of Tripoli. It was coming from the North-east and making directly for the harbor. The five ironclads—Victoria, Camperdown, Edinburgh, Nile and Sans Paroul—were drawn up in full front. The Victoria was in the center. Camperdown was on her left and the Edinburgh on her right.

When they were within five miles of shore Vice-Admiral Sir George Tryon signaled to turn and form in double line. This meant that the Victoria and Camperdown were to go ahead a little and describe a turn—the Victoria turning to the left and the Camperdown turning to the right—then they would advance side by side in the direction from which they had come, the others would swing into a double-column order and advance two and two behind the leaders.

When the order was given the distance between the ships was less than two cable lengths. The execution of the order was easy enough for ships farther away from the center, but extremely difficult for the Victoria and the Camperdown. In turning, their bows would pass within a few fathoms of each other, even if the movement was executed with the greatest precision. This movement was made, and it ended for the purpose of training the ship commanders to move expeditiously away from shoaling waters.

Whether because Admiral Markham of the Camperdown could not believe this movement was to be tried when the ships were so close together, or because he thought Admiral Tryon had miscalculated the distance, he didn't set about executing Admiral Tryon's order, but signaled that he didn't understand it.

Three Sentences for One Man. KITTANNING, Pa., June 27.—Dr. W. C. Howell, who was convicted of complicity in the Leeburg bank robbery, in which Charles Simpson, a fireman, was shot and killed, was yesterday sentenced by Judge Rayburn to the penitentiary for twelve years on the murder charge and four years on the burglary charge and six months to the work house for keeping a gambling house.

Peary Will Start Friday. PHILADELPHIA, June 27.—The steamer Peary, which will bear Lieutenant Peary and his party of explorers to the Arctic regions, will leave here for New York City, where it will stop at that port until Friday, and will then start for Greenland, with a stop at Boston.

Chicago Board of Trade. CHICAGO, June 27.—Instead of strong and higher closes as the result of the local market, the Chicago board of trade today was steady for most of the day, but in the afternoon private cables at the same hour reflected British markets depressed with little prospect of improvement. The weather and crop news was bullish, Kansas and Missouri points sent bullish cables, and stream threshers at work and cars ordered for the day wheat at the stations. The financial conditions were no help to any market. The market started off from last night around 8:30 and 7:30, July and September. On the early selling prices went off to 6 1/2 and 7, or 1 cent lower than the last point yesterday.

The corn market followed what the shorts were buyers on the bulges and lags were sellers on the declines. The market was not known which side to follow. When wheat recovered 1/2 cent in thirty minutes or moved up 1/2 cent for July and 1/2 cent for September. Later the market went back close to the low point with a second wave of wheat. On the advance at 11 o'clock Vance & Barrett led the buying for some unknown principal. The scattered shorts in the trade were forced to buy. The market held steady and this progress was in the past. July sold at 41c to 40c to 41 1/2c and off to 40 1/2c. September sold at 42 1/2c to 42 1/2c and off to 42 1/2c.

During most of the day there was a dull but strong market in provisions. Pork was entirely neglected early, selling later at 18 1/2c and 18 1/2c, July and 18 1/2c and 18 1/2c, August and 18 1/2c and 18 1/2c, September. The difference was mostly 1/2 cent. September later opened up 1/2 cent higher, and at 1 o'clock was back to 18 1/2c. Rib was 18 1/2c to 18 1/2c for September, but sold back to 18 1/2c. Trade was very light.
