## NINE GRADUATES

### The Class of '96, the Largest One in Years.

### THEY RECEIVED THEIR DIPLOMAS LAST NIGHT.

### The Exercises Were Very Pleasing—Large Crowd.

The commencement exercises at the opera house last night were very pleasing. The class of '96 is remarkable in several ways. It is not only the largest class for some ten or more years, but also has the distinction of containing more boys than girls, an instance which probably never before occurred. Another thing, the class is brought into eminence by being the first one to ever receive their sheep skins from a lady member of the school board.

The stage was uniquely decorated with the class colors of white and green, the scenery and carpeting being covered with white, while evergreen flowers and ferns banked the front.

Rev. C. C. Turner offered the invocation and also pronounced the benediction.

With a few appropriate remarks, Mrs. T. M. Joslyn presented the diplomas.

The music was by Miss Nettie Jaeger, an accomplished harpist of Detroit. The music was not only a novelty but it was extremely enjoyable.

The graduates made a very pleasing appearance and were the recipients of many tokens in the way of bouquets, books, etc.

In their respective order the graduates and their subjects were as follows:

Charles H. Northrop.

Mr. Northrop's subject was "The Progress of Education." In an interesting manner he showed the progress made since 1837 and made some striking points by a comparison of the present with the past.

At the urban service held Sunday night there was a crowded house, the ladies being a big majority. Before the special collection was taken, short, appropriate speeches were made by Revs. Mr. Hunsberger and C. C. Turner.

F. R. Beal said there was three ways to look at this matter: (1) "We could read about the sufferers and their needs in the papers and smile over it;" (2) "we could get together and talk about it;" and (3) "we could go down in our pockets and put up some practical help in the way of money."

A committee of four, V. H. Hutton, F. N. Clark, R. H. Beal and Charles Filkins, was then appointed with W. H. Hutton as treasurer, to receive contributions.

F. R. Beal headed the list with 50 and others subscribed various amounts ranging from 25 cents to \$5.00 until the total amount reached \$450.00.

The committee was continued and since this meeting have received from various people about town (including \$5 from M. D. Gorton and \$5 from H. E. C. Daniels and the \$3 from Miss Lettie Johnson) enough to make the total thus subscribed \$404.

The ball game Monday afternoon brought out the largest crowd ever seen on the local ball grounds here. It was the "Fats" vs "Leans" so called.

The players were: "Fats"—C. Filkins, B. Filkins, C. Hutton, T. Merdock, G. Turner, L. Wheeler, A. McPhail, W. Porter, J. Searce, Leans—C. Verdes, F. Matthews, E. Merritt, F. Harmon, C. Downer, S. Knapp, H. Dancer, W. Merdock, W. Hutton.

The game was a most laughable one. At the end of the second inning the score stood 18 to 2 in the Leans' favor and then the "rooters" chaperoned by Messrs. Clark and Brooks got in their work among "de goin' on the bleachers, and by successfully "rattling" somebody the fats crowded up until at the end of the game the score was but 21 to 22 in favor of the slim players. The net receipts were just \$70 and this amount was forwarded by Treasurer Booth to Mr. Hinman, Pontiac, Tuesday morning.

For the ball game all the business houses and the factories closed at 3 o'clock to give employees and proprietors an opportunity to attend the game, and even Landlord Shaler of the Park house besides contributing to the fund closed up the hotel bar, an act probably unheard of before in the history of this country.

It is thought that with what the King's Daughters sent, the church collection, the ball game and the subscription now being solicited will raise the total amount to \$200.

In a very conclusive way of argument and illustrations she showed that tact will accomplish all things. It will out-ride our general out-works, it will direct our general course in a direct contact with each other. Tact will always secure the place, talent sometimes.

WILLIAM B. BARLEY.  
The Beacon Light of History was Mr. Barley's subject. Beginning with Grecian history he followed the lives and acts of great men down to the present century who have aided the civilization of their country, saved it from ruin or increased its power. In closing, he paid a fitting tribute to our own Washington and Lincoln.

FLORENCE H. CLARSON.  
The subject of Miss Clarkson's essay was "The Spoils System." The system referred to was that in vogue whereby the motto of "to the victor belongs the spoils" is interpreted by the political party on top just after an election. The evils of this system were vividly contrasted with the benefits of the civil service reform. When all others were included under this system—national, state and municipal—the reform would be complete, and men of character and ability would see official life as they now do professional.

In her valedictory, Miss Clarkson pointed the class to the path of duty and after paying the respects of the class to their tutors bade a last good night.

## FOR SWEET CHARITY.

### NORTHVILLE ASSISTS THE CYCLONE SUFFERERS.

### The Total Will Doubtless Reach 200 Dollars.

Northville people were just a trifle busy in watching the needs in the case of the Oakland county cyclone sufferers but when they did vacation they got right out of bed. About fifteen weeks ago the society of King's Daughters donated \$10.00 from their treasury and then passed a paper around among some of the business men who contributed in various sums amounting in all to \$17.25 making the total \$27.25 which the society forwarded to G. W. Hinman chairman of the relief committee at Pontiac.

At the urban service held Sunday night there was a crowded house, the ladies being a big majority. Before the special collection was taken, short, appropriate speeches were made by Revs. Mr. Hunsberger and C. C. Turner. F. R. Beal said there was three ways to look at this matter: (1) "We could read about the sufferers and their needs in the papers and smile over it;" (2) "we could get together and talk about it;" and (3) "we could go down in our pockets and put up some practical help in the way of money."

## ANOTHER BUSINESS CHANGE.

### The Firm of Hutton & Son Makes a Shift.

The well known grocery firm of L. W. Hutton & Son makes a change this week whereby the junior member, William H., purchases his father's interest and becomes sole proprietor. Mr. Hutton junior has been so long in business in Northville that he needs no further introduction at our hands.

W. H. HUTTON

His courteous and obliging ways, have won for himself a host of friends who will wish him nothing but continued prosperity.

## ANOTHER BARN RAISING.

### An Old Fashioned Time at George Clark's.

On Saturday last at the residence of George Clark, west of the village, was a day full of work and merriment but also of anxiety, especially to those who were by an eminent degree the burden bearers. A very large barn was raised. It was an old time raising in many respects, as the numbers who early found their way there were festive, and the hearty "ra" "ra" "ra" from the commandeer, carried many back to childhood days. A sumptuous dinner was served to about thirty persons and a still more sumptuous supper to 111 who were well kept well for toothsome things. True, we missed the "five gall kettle" filled with hearty delicious "pea pie" which our mothers and grandmothers were wont to swing over the fire on such occasions, but in its stead using the products of modern cookery—the veal loaves, the pressed meats and salads and many more which space forbids to mention. And then, as though to satisfy the voracious appetite, the ice cream and cakes found a place until everyone was more than satisfied. Even here "history repeats itself." The day closed with work well done, every tenon securely pinned in its mortise, every beam in its place, not a visage marked nor finger crushed and all returned home not only gratified but satisfied.

## THE JUNIORS' RECEPTION.

### It Was a Very Swell Affair, 'Twas Indeed.

The reception tendered to the class of '96 by the juniors from ten to twelve at the close of the commencement exercises at the spacious home of Mr. and Mrs. J. M. Burgess last evening was the finest affair of the kind ever held in Northville. There were fifty invitations issued and just about that many responded.

The house was beautifully decorated with potted flowers, ferns and colored lights. Mrs. Long and Mr. Tinham furnished the evening's music in a delightful manner. Miss Mabel Welch acted as toast-mistress in a very able manner. It was an event that will long be remembered.

## Suburban News.

The bold, bad caterpillar soon, All snugly hid from view, Will murmur to the summer girl, "I have a drop on you."

Oakland county Sunday-school rally at Pontiac July 1.

A charity concert was given at Wayne last week for the benefit of the cyclone sufferers of our state.

The Powerville Review shows its progressiveness by abandoning the publication of the chess-tourney "Washington Letter."

The Ann Arbor railroad now checks bicycles between all stations on its lines free of charge. May the good work go ahead.

The Holly Independent in speaking of the Hessians asks as a head line, "shall we have bread?" There is no question about it if it is kneaded.

The Springwells Times has secured commodious quarters on the ground floor in a central location, and the next thing will be a bulge on the paper.

F. J. Simmons is having an independent sleeping building constructed near his summer cottage—Orion Review.

Simmons must be afraid either of flies, mosquitoes or his wife.

An Ypsilanti night watchman fell down stairs the other night and was severely injured. A night watch should sleep at the bottom of the stairway, not at the top.—Monroe Democrat.

Howell has a ladies' club that aims to entertain their husbands, and the members study how to succeed in that gigantic task. It is said they believe in the "Golden rule," but the husbands don't.

Only seventy-five people turned out to hear Morgan L. Wood at Farmington recently. Some how or other the majority of people do not seem to appreciate a chance to hear a celebrated speaker.

Over 2,000 gallons of milk are shipped daily to Detroit from Northville. Farmers milk their cows three times a day and the pump once at midnight. Why not establish a pipe line to the city, same as for oil?—Adrian Press.

And have some Adrian milk man tap it to supply his customers? Not much.

Nearly 500 performers will take part in Patti's thrilling military spectacle, "Storming of Vicksburg" performance at the Detroit Railway's Boulevard Park, Detroit, commencing June 22 and continuing every night until July 3, and the big amphitheater will comfortably seat 15,000 persons.

We should like the Adrian Press to rise up and explain the following which we clip from Monday's Tribune: While ex-Mr. Willard Thomas of Adrian was proceeding to a store on corner of Michigan and Grand streets, he was held up by a man who is said to be a member of the "Black Legion" and was up in front of his house looking a worried fellow on his feet.

The Holly faces are declared out. Many of the most liberal subscribers to the cyclone fund are those who before have given for the guarantee fund of the driving club and in the face of the discouraging reports from other good towns where race meetings have run behind it was thought best to postpone it until autumn.

The editor of the Trenton Visitor regrets that last week, for beautiful bouquets, Mrs. Mabel L. Ayers is the sprightly editor, but she was away last week and her husband edited the paper. She can see how things have been going since she left.—Monroe Democrat.

And only a week or two ago a representative of a well known Chicago tailoring house was showing us a contract made with the Visitor publisher for a whole suit of clothes, including coat, pants and vest.

Capt. Frank Landers, chief of Iowa census bureau, has just completed the compilation of the statistics relating to agriculture taken last year. It covers a vast amount of matter never embraced before by any census of the state of Iowa. It shows the average size of Iowa farms is 153 acres. There are 22,500 with less than forty acres, 57,800 with between 100 and 640, and a total of 204,385 farms in the state. Mortgages exist on \$3,562, with a net indebtedness of \$138,585,720. There are 25,373,000 improved acres, and 5,427,624 unimproved. The corn crop of 1914 was 128,000,000 bushels. The total value of hay the same year was \$5,859,000, while the corn stalks cut that year are given as worth \$2,262,000. The chickens marketed brought \$1,125,000; turkeys, \$713,800; and eggs, \$3,960,000. The number of dogs in the state is placed at 140,446.

We, the undersigned, having been appointed by the Probate Court for the County of Wayne, State of Michigan, Commissioners to receive, examine and adjust all claims and demands, actual persons against said deceased, do hereby give notice that we will meet at the office of Doctor J. M. Swift in the Village of Northville in said County on Tuesday the 11th day of August, A. D. 1919, and on Wednesday the 2nd day of December, A. D. 1919, at 10 o'clock, a. m. of each of said days, for the purpose of examining and allowing said claims and demands, and allowing said claims and demands to the extent of the assets of said deceased. Dated June 16, 1919. JOHN M. SWIFT, J. G. RICHARDSON, Commissioners.

**"LITTLE GIANT"**  
Traveling Lawn Sprinkler.

This is an INGENUOUS, EFFICIENT and WORKMANLY machine. Under an ordinary water pressure of 20 pounds or upwards it will discharge 100 feet of garden hose and propel same slowly and continuously in either a straight line or a circle of any desired diameter, while its speed may be varied at will from 15 to 500 feet per hour.

By means of a figured dial plate it may be set to travel any desired distance. A moment suffices to change its speed from the highest to the lowest and it may be gauged to distribute a spray effectively over a swath varying in width from 5 to 50 feet, while by simply throwing it out of gear it is instantly converted into a stationary sprinkler of exceptional efficiency.

The propelling force, is supplied by back pressure of water in the arms causing them to revolve with force and rapidity while at the same time they throw out a fine spray of mist.

The "Little Giant" Sprinkler received the highest award at the World's Columbian Exposition, Chicago, May be seen at work on the lawn of the editor of this paper.

## THE FOUR QUARTERS

**NEWS OF INTEREST FROM ALL OVER THE GLOBE.**

**Havana the Scene of Great Excitement**  
Caused by Dynamic Explosions Which Nearly Cut Off the Water Supply—Disaster and Panic Feared.

**Reign of Terror in Havana.**  
Havana, This city was startled and alarmed at 9 p. m. by the noise of two successive explosions which were heard for several miles. Consternation prevailed for a time as it was feared that this was a prelude to an attack by the insurgents or to a series of similar explosions. Excited throngs rushed to the streets while an armed party proceeded in the direction from which the detonations had been heard. It was soon found that the stone bridge of Christina and Coche and the aqueduct of Fernando and Septimo were the points that had suffered from the dynamite. The bridges were partially destroyed and the pipes on the aqueduct, upon which the city is dependent for its water supply, were much damaged.

There is no doubt that the dynamite which caused this wreck was placed by agents of the insurgents. It has been their determination, unannounced some time since, to cut off the water supply of Havana and so make the city nearly uninhabitable as possible. The greatest apprehension is felt on account of the secrecy and effectiveness with which the insurgents have been able to carry out their designs.

All fruits and vegetables, and fresh meats are unprecedentedly high-priced and difficult to obtain in Havana and in the neighborhood. There is much fever, and smallpox has broken out and in the unwholesome condition of affairs threatens to become epidemic. Many are suffering from malaria, and there is much intestinal trouble among the inhabitants, owing to poor and insufficient food. The failure of the water supply under these conditions is a dire calamity.

Another situation has been created at Havana by an editorial in the Havana Tribune, the leading paper of Havana, Spain. Copies of the paper which reached Havana have been suppressed by Gen. Weyler. The subject of the editorial is an American statement that the war is nearly over. It is said that the liberal press in Havana is being persecuted, and that the liberal press in Havana is being persecuted, and that the liberal press in Havana is being persecuted.

**NEWS ITEMS IN BRIEF**

August Jensen, aged 17, was drowned in Perry lake at Green white bathing.

Wheat and oats harvest in progress in Nebraska. The period is from one to five weeks in advance of the average. The yield is something improved in Nebraska. About 50,000 bushels of wheat and an enormous acreage of rice grain and because of insufficient help committed suicide.

The Junior Order of United American Mechanics held their twenty-eighth annual convention at Denver and it is estimated that fully 15,000 members of the order and friends were there. The order, which has a membership of 300,000, was organized in 1854. Forty-one states will be represented at this meeting.

Three hundred and fifty Roman Catholic soldiers of the British Mediterranean Squadron made a special visit to the Vatican. They attended mass in the Sistine chapel in the presence of the pope, who blessed them as he was carried out. The scene was a striking one: the soldiers giving prolonged cheers and waving their hats.

Spanish dispatches tell of a two days' battle between the Spanish and insurgent forces near Ciego de Avila, in which the insurgent forces of 4,000 men were repulsed by half as many Spaniards until the arrival of reinforcements for the latter. The loss to the insurgents is given as 300 killed and wounded while only 49 Spaniards were lost.

Mrs. Victoria Morris, widow of the late Prof. George Morris, has offered to donate to the University of Michigan, the entire philosophical library possessed by her husband, consisting of about 1,000 volumes, pamphlets and papers. Prof. Morris was at the head of the philosophical department of the university at the time of his death in 1880.

President Kruger held a big reception at Pretoria, the mayors of all the towns of South Africa, with deputations calling on him to thank him for his clemency toward convicted reformers. Kruger said the Bible was his guide. Referring to Cecil Rhodes, he said he acted as if he were egging on a dog-fight. He was the cause of all the trouble and is still unpunished.

In Bow street police court, London, Dr. J. S. Jameson, Maj. Sir John Willoughby, Col. R. Grey, Major H. White, Col. H. P. White and Hon. Henry F. Coventry, the prime movers in the Transvaal raid, were committed for trial. The other nine accused persons were discharged. George H. Wyckoff, president of the Bank of New Amsterdam, of New York City, was shot twice in the abdomen while in his private office in the bank by a man named Clarence Clark. Clark demanded \$3,000 and meeting with a refusal fired the shots and then turned the pistol on himself, and both men will die. Mr. Wyckoff is 60 years old, and resides in Montclair, N. J.; Clark is 30 years old.

## HEART DISEASE

Many other ailments when they have taken hold of the system, never get better of their own accord, but gradually grow worse. There are thousands who know they have a defective heart, but will not admit it. They don't want their friends to worry, and don't know what to take for it, as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Drysville, Ohio, who writes June 13, 1884, as follows:

"I had heart disease for 23 years, my heart hurting the most continually. The first five years I doctored all the time, trying several physicians and remedies, and my last doctor told me it was only a question of time as to how long I could live. I gradually grew weaker, very weak, and completely discouraged, until I lived propped up in bed because I couldn't lie down nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones of Anderson, Ind., I commenced taking Dr. Miles' Heart Cure for the Heart, and wonderful to tell in ten days I was working about work and on March 15 commenced feeling a little better. It is now four years and I have not had a day since I am years old, 51-44 inches and weigh 205 lbs. I believe I am fully cured, and I am now only anxious that everyone shall know of your wonderful remedies."

Drysville, Ohio. SILAS FARLEY.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at 25¢ a bottle, for 50¢ it will be sent, prepaid, by mail, by Dr. Miles Medical Co., Elkhart, Ind.

## Marvelous Results.

From a letter written by Rev. J. G. Gardner of Dimondale, Mich. "I have to mention the recommendation of King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with Rheumatism and was unable to get up. I tried every remedy I could get, but nothing would do her any good. I bought a bottle of King's New Discovery and it was quick in its work and really made a difference in her condition. Romey Barnhart was arrested again this week on charge of being drunk and disorderly. Before Justice Webster Wednesday he pleaded not guilty and was released on his recognizance to appear for trial at 10:00 a. m. tomorrow.

Prof. and Mrs. Bliss tendered the seniors and juniors a reception, at their home Tuesday night. It was a very pleasant affair and during the evening the classes presented Mr. and Mrs. Bliss with a beautiful ebony mantle clock.

The 8th grade, the class of '00, pupils, twenty in number, had promotion exercises in the High school recitation room yesterday afternoon. A very pleasing program was rendered. The pupils issued 125 invitations for the occasion.

The machinery delivery, by the Miller-Merritt Co. last week was a great success. The long line of teams hitched to the machinery, reaching from way down Main street to Wing street made an imposing appearance. The banquet to the farmers at the Park house was a fine affair.

The following letter was received from Pontiac Monday:

Pontiac, Mich., June 17, '06.  
Chas. Booth, Treas., Northville.

Your base ball game contribution of \$2.00 for benefit of cyclone sufferers is received. I fully appreciate the same and hope that it will be of some benefit to the sufferers.

Congressman Spalding has formally notified the G. A. R. post here that a government capton is awaiting them as soon as they will arrange for its transportation from the Boston navy yards. The one selected weighs over three tons and when received will be placed on the G. A. R. lot in Rural Hill.

If you wish to save your fruit trees now is your time to attend to them. Look the bark over and where it is rough as if bursting and a pulpy mass is forming there are the larvae at work that will destroy the tree. Take a sharp knife carefully pare away the rough mass and destroy the little worms you will find there.

Peter Coupell, the well known Main street memorial artist, has sold one-half interest in his shop to Charles Thurston who has been his assistant for a year past. Mr. Coupell is a very skilled artist but he is also a very popular young man. The new firm will be known henceforth as Coupell & Thurston and hopes to their future success. Mr. Matthews will remain with the new firm of course.

Of the marriage of Rev. J. H. Herbener of this place last week the Thomsville Daily Times of the 11th has this to say: "St. Thomas church was packed with a fashionable audience last night to witness the marriage of Miss Florence Mitchell and Rev. J. H. Herbener. Before the hour of the ceremony, 5:30 o'clock, every seat was occupied by the friends and acquaintances of the bride and groom. The bride was gowned in pure white, and while at all times a strikingly handsome woman, she never looked more regal in her womanly beauty than in her bridal robes. She was met at the altar by the groom, who was attended by his little son, Master Henry, when the Rev. C. I. LaRoche, using the beautiful and always impressive Episcopal marriage ceremony, pronounced the words which made them man and wife. The bride is one of the best known and most popular young ladies in Thomsville county. Charming in person and manner, her popularity is only limited by her acquaintance."

White and black Mitts at Miss Boyce's.

Miss Boyce can show you all kinds of ladies Underwear, ladies Gowns, very handsome. Cheaper than you can make them.

The Northville ball club will play the South Lyon club in that village June 30.

The village tax roll is now in the hands of the treasurer at J. S. Lapham & Co.'s bank.

The village is plastering the surrounding country hereabouts these days with some very artistically arranged and neatly penciled sign boards.

The Standard Co.'s tanks for their oil depot here have arrived and are being placed in place. The business will be in operation, was expected, by July 1.

A reception will be tendered to Mr. and Mrs. Herbener at the home of Dr. and Mrs. Swift this evening. No invitations were issued but it is understood that all friends are invited.

Children's day exercises at the various churches here passed off very nicely last Sunday and all those in attendance were exceptionally well pleased. The decorations of flowers were particularly fine.

It is whispered about town that a game of tennis played on the ball grounds by our local lady players against some team from abroad would be highly pleasing to the town's people. As the ladies have any delicacy about undertaking such an exhibition of skill for anything but amusement for the players, let an admission fee be charged, the proceeds of which donated to the cyclone sufferers will relieve the embarrassment of a first appearance.

The subscription books of the cyclone sufferers relief fund will remain open until Saturday night at the store of the treasurer, W. H. Hutton. Any one who would like to donate a few dollars or a few cents can thus have an opportunity even though the committee fails to call personally. There are still a number of people in Northville who have not yet given a single cent for this suffering people who can easily afford to do so, but for some reason or other have thus far failed to respond.

The editor has been taking observations on the difference between a lady and gentleman in mounting a bicycle. He says the lady stops, adjusts her skirts, puts one foot upon a pedal, gives a little spring, seats herself upon the saddle and away she goes. The man grabs the handle bar, stretches himself out behind the machine, one foot upon the pedal, hops along on one leg like a lame ostrich, gives a jump, lands "flat plank" in the saddle, tries about to find the pedals and then goes wobbling along for a mile or so before he gets his center of gravity located.

**LIFE INSURANCE SWINDLERS.**

A New Brand of Fraud Practiced by Unscrupulous Medical Practitioners.

The discovery has just been made by the medical examiners of some of the leading life insurance companies that an unscrupulous class of practitioners are making a business of doctoring diseased applicants for policies so they can describe the agents of the companies, and thereby swindle those organizations, says the New York World. So extensive has this nefarious practice become that it is proposed to hold a convention of insurance examiners for the purpose of devising plans to counteract it. Heart trouble, for instance, is one of the commonest causes of rejection for life insurance. The symptoms, under ordinary conditions, show the condition of the heart, but it has been found possible to "doctor" a man who is suffering from, say, valvular insufficiency of heart murmur, so that for the time being the heart acts in a perfectly healthy manner and would be passed by the keenest examiners as all right. In like manner it is possible to administer medicaments that will hide all evidence of Bright's disease, provided it is not too far advanced. And the same thing is true of persons suffering from diabetes and many other diseases. The question is a most important one, not only for the companies, but for bona-fide policy holders, and it probably will be made a subject of legislation in every state in the Union.

## Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts, gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

## PENINSULA MATTERS

RELATED IN A BRIEF, CONCISE MANNER.

**State Convention of the Woman's Christian Union at Marquette had a Warm Time.**

Ex-Gov. Felch Passes Away at Ann Arbor at the Age of 92 Years.

Ex-Gov. Felch is Dead.

Ex-Gov. Alpheus Felch passed quietly away at his home at Ann Arbor after a lengthy illness at the age of 92 years. Alpheus Felch was born in 1804 in Limerick, Me., and came to Michigan in 1833, settling at Monroe. He at once took an active part in the public affairs of the territory. He was chosen a member of the first legislature in 1835 and was re-elected in 1836 and 1837. As a legislator he rendered signal service in laying the foundation for Michigan's Statehood. In 1833 he served as one of the state bank commissioners. A brief service as auditor-general in 1844 was followed by his appointment as judge of the state supreme court. In 1845 he was elected governor and served in that position until his death. He entered the military service in 1847, and was killed at the battle of Pelee Island, Mich., on Sept. 19, 1847. His term of office as governor expired on March 23, 1853. He was soon after called upon by the President of the United States to discharge the duties of a most important and delicate position in adjusting Spanish and Mexican land claims in California. His duties completed, he returned to Michigan in 1856 and made his home at Ann Arbor. Being a Democrat in politics, the ascendancy of the Republican party in Michigan relegated Mr. Felch to private life. He was nominated for governor for U. S. senator and twice for judge of the supreme court, but was defeated each time. In 1873 he retired from the active practice of law. In 1877 the honorary degree of LL. D. was conferred upon him by the University of Michigan, and in 1879 he was appointed Tappan professor of law, which office he held for six years. His last speech in public was at the banquet given him at Ann Arbor by the Washington bar in September, 1894, in honor of his 90th birthday. Prominent lawyers were present from all over this state and from other states, and the speech of the occasion was that by Gov. Felch.

**Michigan W. C. T. U. Convention.**

The Woman's Christian Temperance Union of Michigan met in annual convention at Marquette with nearly 100 delegates in attendance. The first session was devoted to memorial services. Mayor Jacobs, Rev. F. J. Mill, and Mrs. Geo. L. Heston delivered addresses of welcome. Report of officers showed a state membership of 26,000; new unions, 48; honorary members, 12,900; receipts, \$1,961; disbursements, \$2,217. Officers were elected as follows: President, Mrs. A. S. Bingham; of Parthian, corresponding secretary, Mrs. Julia Pariah of Bay City; recording secretary, Mrs. C. H. Johnson, of Flint; treasurer, Mrs. Jennie Voorhies, of Ann Arbor; delegate to national convention at St. Louis, Mrs. Anna Sheldon, of St. Albans. There was a warm time over electing a vice president at large instead of allowing the president to name the incumbent, but it was voted down and the president named Mrs. L. C. Faxon for the office. A telegram received from the headquarters of the new National party came near causing trouble when it was moved to adopt a memorial denouncing the old Prohibition party for seeking to place a suffrage plank in the platform and to endorse the new party. The matter was finally referred to a committee and a compromise was later reported and adopted which virtually commits the union to the new party, without naming it.

**Almost a Catastrophe at Muskegon.**

For some time the great stone viaduct which spans Rudliff's river, on Lake street, Muskegon, has been considered unsafe by a great many, and yet the city has allowed it to go uninspected and unrepaired until it has finally collapsed. A street car and two trailers heavily loaded with people had just crossed over their way to Lake Michigan park when the west end of the bridge went down with a crash. Fortunately no one was hurt.

The big main from the pumping works, which runs along the bridge, broke in two; and the city's water supply was cut off. The old abandoned pumping station was started up, and a large force of men went to work repairing the main.

**Three Killed in an Explosion.**

A terrific explosion at the Michigan salt works, two miles below Marine City, killed three men and injured one other. The dead are: William Nowbray, night foreman; John E. Halyer, farmer; Peter Booth, fireman. The injured—Cyrillus O'Neill. A few minutes after the explosion flames broke out, and half an hour later, the structure was in ashes. This was the newest salt works at Marine City, and the loss is about \$50,000, with \$10,000 insurance.

**Constable Killed by a Tramp.**

Constable Arthur Sever of Bridgman was stabbed through the heart by a tramp, whom he was trying to arrest near St. Joseph. The tramp resisted the officer, and a fight ensued, in which the former drew a long knife and plunged it through the officer's heart. Sever died instantly.

**Mrs. Frances E. Burns, newly elected great commander of the great hive of Ledy Macbees, was given a big reception upon her return to St. Louis.**

**Wm. H. Lampham, proprietor of a cheap lodging house at Grand Rapids, was shot and killed for calling Geo. T. Sullivan "a thief and a liar" during a quarrel over a laundry bill.**

Bela Hubbard, aged 82, one of the oldest prominent citizens of Detroit, died after an illness of several weeks. He had been identified with Detroit's interests since the early territorial days of Michigan.

## Two Men Killed by an Awful Fall.

John Wood and Benjamin McCall, both about 50 years of age, were almost instantly killed by a terrible fall inside the new 211-foot chimney of the Consolidated Street Railway Co.'s power house at Grand Rapids. The chimney had just been completed and the men were working inside removing the scaffolding. They wanted the elevator to go down, but gave the wrong signal and it went up. The snort was knocked from under them and, with a mass of timber they fell 200 feet. McCall was dead when picked up and Wood died soon after. Wood leaves a family, but McCall was single.

An attempt was made to blow up the residence of Capt. Marlin Goldsworthy at Iron Mountain. The first explosion ripped off a number of boards and brought down a section of plaster in the room occupied by Goldsworthy's son. It fell on his bed and injured him slightly. The second stick was placed under the hallway and did little damage. It is thought to be the work of miners who have been refused work. Capt. Goldsworthy's relations with the men have always been pleasant, and no labor troubles have taken place at the Chapin mine for some time past.

## MICHIGAN MACBEES

When the great camp of the Knights of the Tented Macbees assembled at Saginaw nearly 500 delegates were reported present. The session had scarcely opened when the opponents to Great Commander Boynton began to show fight, but they were turned down at every point. The great commander reported 85,000 men and 29,000 women in the order of the Macbees in Michigan.

The first session of the uniformed rank was held at Germania institute, Brigadier Gen. White presiding. Adj. P. J. Abt, of Detroit, was chosen adjutant-general, Levi Auehamraugh, inspector-general, Col. Stetzer, quarter-master-general, Louis Kries, of Saginaw, commissary-general. It was decided to hold biennial meetings, the next to be at Kalamazoo in August, 1898. The uniformed rank will receive an outfit and will hold their encampments to a military style. The prize drill at Union park was interesting and Col. Kelly division, No. 15, of Kalamazoo, won first prize, with Pearl Division, No. 1, of Cleveland, a close second.

At the session of Ladies of the Macbees, Great Commander Lillian M. Hollister made a thorough report. During the year ending Dec. 31, 1897, there was an increase of 96 hives and 7,800 members, giving the order a total of 63 hives and 27,110 members. Since January 1, the number has grown to 60 hives with 28,678 members and 29,498 life member certificates. The local Macbees gave a reception at the Masonic temple which was greatly enjoyed.

The fight against the administration of Great Commander Boynton was continued when it came to the election of officers, but the kickers were downed and the administration slate was elected as follows: Great Commander, N. S. Boynton; great lieutenant commander, Beverly Hall; great recorder, Thomas Watson; great finance keeper, R. J. Whaley; great medical chairman, Edwin Eaton, M. D.; great chaplain, Oscar Allyn. The other great officers elected are: Great sergeant, Edwin Boyce; great St. Mary; great master-at-arms, W. S. Evans; great water first master of the guard, Emil Schilling of Ironwood; second great master-at-arms, George G. Lutz; Ann Arbor great sentinel, George C. Ray; Bay City great picket, Nat L. Johnson, of Detroit. Then the defeated kickers announced that they were content to return to place and no further would be pledged of loyalty.

This election in the great hive of Lady Macbees resulted: Great commander, Mrs. Frances Burns, St. Louis; great lieutenant commander, Mrs. Lillian M. Hollister, of Bay City; great recorder, Mrs. Mary Campbell, of Marquette; great chaplain, Mrs. Anna G. Holthe, of Muskegon; great picket, Mrs. Logan, of Saginaw; great picket, Mrs. Logan, of Saginaw; great picket, Mrs. Logan, of Saginaw; great picket, Mrs. Logan, of Saginaw.

The Democracy of Louisiana instructed delegates to vote only for men pledged to the free college of silver.

Mrs. Henry Ingraham, of Battle Creek, has not tasted food since Jan. 21, owing to a severe case of paralysis of the stomach. She weighed 210 pounds when first affected, and she is now greatly reduced in flesh and very weak. Her face, however, retains a healthy appearance. Once before she was similarly afflicted and at that time she went 302 days without food, and for 200 days. She took neither food nor drink, and the water apparently effected a cure for her until this recent attack.

The following incident would be hard to believe if it had not occurred right here in Grand Rapids, and investigation by our representative has placed it beyond the reach of doubt. These are the facts: In 1891, Mr. J. H. Walker of No. 25 Hilday street, has been in the office of penmanship in different business concerns for the last fourteen years. He says that Oct. 1, 1891, he was suddenly taken ill. I consulted a physician, who said the pain was from "gravel stones" gradually grew worse; the pain was in my back and side. My back swelled up in a great ridge, and I finally grew so bad that I was taken to bed, as helpless as a child. I passed blood, and when the pain was at its worst I was like one crazy. The doctor injected morphine to give me relief, but further than that he said he was powerless, and nothing would do me any good but a surgical operation. I believe my flesh was literally cooked in the attempts to give me any relief. I was in this condition, given up by the doctor, and almost out of my mind with suffering. I commenced taking Doan's Kidney Pills, and really I felt easier in 30 minutes. After about two hours I had a passage of urine, and passed blood and some gravel stones which greatly relieved me. I rapidly improved. I took in all six boxes, and I feel today entirely well. My back has been a wonderful ease. I feel that I cannot say anything so strong enough for Doan's Kidney Pills. My great wish is that they may become well known. They will prove a boon to mankind.

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents, for the U. S. Remember the name, Doan's, and like no other.

REVIEW OF TRADE.

There is little or no effort to push business this period so much excitement as to the price terms of the financial panic. It is adopted by the great political parties in national convention. The general merchandise movement continues as usual, and continues as heretofore, retailers with few exceptions buying only for immediate necessities. Merchandise collections continue slow and unsatisfactory and there is no gain in the cotton factory and there is no gain in the steel industry. There is a feeling of gloom and depression in the wool trade so much machinery is idle. Years ago all branches of dry goods are somewhat depressed. Cotton goods are below a parity with raw material.

The state of Indiana furnished a great many tall men for the army. Out of 118,524 men whose descriptions were taken at the time of enlisting in 1862, 766 six feet tall.

Wentworth Varney of Palmyra, Me., has an old-fashioned alarm pendulum clock that his grandfather, Caleb Varney, the quaker, brought from England more than 150 years ago.

A curious old law still prevails with regard to the pictures in the Louvre, Paris. No painting is permitted to adorn its walls until the artist shall have been dead ten years.

## MOTHERS MUST GUIDE

Should Watch the Physical Development of Their Daughters.

Information They Should Furnish at the Proper Time—Knowledge by Which Suffering May Be Avoided.

Every mother possesses information of vital value to her young daughter. When the girl's thoughts become sluggish, with headache, dizziness, and a disposition to

deep sighs in neck and lower limbs, eyes dim, and desire for solitude, and admission to the society of children when she is a mystery to herself and friends, then her mother should come to her aid. Lydia E. Pinkham's Vegetable Compound will, at this time, prepare the system for the coming change. See that she has it, and Mrs. Pinkham, at Lynn, Mass., will cheerfully answer any letters where information is desired. Thousands of women owe their health to her, and the Vegetable Compound, and mothers are constantly applying to her for advice regarding their daughters.

A man in the dock charged with theft. He pleaded "guilty" but the jury's verdict was "not guilty." The judge was not at all satisfied with the result of the trial and remarked to the prisoner: "You do not leave this court without a stain upon your character, for by your own confession you are a thief and by the verdict of the jury you are a liar."—Pick Me Up.

## A GRAND TRIUMPH

Battled Many Times but Success Comes at Last.

(From the Grand Rapids Press.)

The following incident would be hard to believe if it had not occurred right here in Grand Rapids, and investigation by our representative has placed it beyond the reach of doubt. These are the facts: In 1891, Mr. J. H. Walker of No. 25 Hilday street, has been in the office of penmanship in different business concerns for the last fourteen years. He says that Oct. 1, 1891, he was suddenly taken ill. I consulted a physician, who said the pain was from "gravel stones" gradually grew worse; the pain was in my back and side. My back swelled up in a great ridge, and I finally grew so bad that I was taken to bed, as helpless as a child. I passed blood, and when the pain was at its worst I was like one crazy. The doctor injected morphine to give me relief, but further than that he said he was powerless, and nothing would do me any good but a surgical operation. I believe my flesh was literally cooked in the attempts to give me any relief. I was in this condition, given up by the doctor, and almost out of my mind with suffering. I commenced taking Doan's Kidney Pills, and really I felt easier in 30 minutes. After about two hours I had a passage of urine, and passed blood and some gravel stones which greatly relieved me. I rapidly improved. I took in all six boxes, and I feel today entirely well. My back has been a wonderful ease. I feel that I cannot say anything so strong enough for Doan's Kidney Pills. My great wish is that they may become well known. They will prove a boon to mankind.

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents, for the U. S. Remember the name, Doan's, and like no other.

The fattest thing about saying "no" to God today is that you may have to keep on going it forever.
