- Overgrown (grass / groundcover)
- Biological (moss / lichen covered)
- Displaced (not marking grave)

**Type of Marker / Monument:**  
 die in socket

**Type of Tombstone Arch:**  
 caps

**Previous Repairs:**

**Remarks / Comments:** This marker is currently flat on the ground. It is broken across the bottom; the base of the stone was found buried nearby (see photo). The base has some additional decoration on it, but no further text. A socket that most probably belongs to this stone is also buried nearby (see photo). The base would have to be dug up to make sure it fits in the socket.
