- ❑ Overgrown (grass / groundcover)
- ❑ Biological (moss / lichen covered)
- ❑ Displaced (not marking grave)

Type of Marker / Monument:

- headstone

Type of Tombstone Arch:

- rectangular

Previous Repairs:

Remarks / Comments: This marker is probably close to marking the grave, but since it is on the ground perpendicular to the other Hinman stones, it cannot be in exactly the right spot (see photo). A broken ground-lip midget mason jar (1858) was found under the lower section of this marker and was reburied there.
